

Divya Raval

Ahmedabad, Gujarat | +91-7285049321 | divyaraval.cs@gmail.com | LinkedIn | GitHub

SKILLS

Languages: C++, JavaScript, HTML5, CSS3

Frameworks & Libraries: Express.js, Node.js, React.js

Databases & Cloud: MySQL (SQL), MongoDB (NoSQL), AWS S3

Developer Tools: Git, GitHub, Postman

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Cryptography, Blockchain

EDUCATION

Nirma University

B.Tech in Computer Science, CGPA: 8.44

August 2023 – May 2027

Shri Maruti Vidhyamandir

12th Science, Board Percentile: 99.28, ACPC Rank: 298

March 2023

PROJECTS

RailYatra – Railway Booking System | React, Node.js, Express, MongoDB, Redis

- Developed a full-stack railway ticket booking platform with secure JWT-based authentication and role-based authorization
- Integrated Razorpay Payment Gateway for online ticket payments and automated booking confirmation
- Implemented Redis TTL-based seat locking to resolve concurrent seat booking conflicts and prevent double bookings
- Designed RESTful APIs for train search, seat availability, bookings, cancellations, and payment verification

HackForge AI – AI-Powered Discord Hackathon Bot | Node.js, Express.js, Discord.js, MongoDB, Supabase, Ollama

- Developed an AI-powered Discord bot to automate hackathon workflows including registrations, team formation, submissions, and judging
- Implemented a custom RAG pipeline using Supabase Vector Search and Ollama to deliver context-aware answers from indexed PDFs, FAQs, and documentation
- Built role-based automation for organizers, judges, mentors, and participants, including server provisioning and permission management

DivDocs – Real-Time Collaborative Document Workspace | React.js, Node.js, Express.js, Socket.IO, MongoDB

- Built a Google Docs-style collaborative editor with real-time multi-user editing using Socket.IO
- Implemented document search, inline renaming, sharing, auto-save, and live presence indicators
- Developed scalable REST APIs and MongoDB-backed storage with export support for PDF, Markdown, HTML, and TXT

ACHIEVEMENTS

Top 10 Finalist, MINeD Hackathon (2025) – Built Episodic Intelligence Engine, a modular 7-phase AI pipeline that decomposes a story concept into a structured episodic series, analyzes emotional pacing and retention risk using HuggingFace and sentence-transformer models, and synthesizes the optimized script into a multi-voice podcast using OpenAI GPT-4o-mini and TTS

District-Level Chess Participant, Khel Mahakumbh, Gujarat (October 2023) – Competed in district-level chess championship, demonstrating strategic thinking and decision-making under pressure

LeetCode : DivyaRaval (Top 10%, Max Rating: 1744)

Codeforces : divyaraval (Pupil, Max Rating: 1303)

LEADERSHIP & ACTIVITIES

Executive Member, CSC Cybersecurity Club, ITNU – August 2025 – Present

Member, HFT 2027 Batch Community, Nirma University – August 2024 – Present

Volunteer, Parevda Group (Community Service) – May 2024 – July 2024
